GLOBAL PREDICTIONS 2010 – 2012

By Eve Anderson

GLOBAL PREDICTIONS 2010-2012

Can we change events?

Some can be influenced for the good and other bad predictions, evil ones can make events sooner but all and all these events globally are deeply affecting all of us and have evolved in last 20 – 200 years. We will look at all major events and dates in store for earth and it's people. Issues of health, well-being, economy, weather, disasters, locations and hope, answers and solutions.

IN 2010 WHAT WILL HAPPEN? ILLNESS

Malaria

Africa is the source

Come to USA in February 2010 and Canada in April 2010

December 2010: In the U.S.A 800,000 will die and 260,000 will die in Canada

December 2011: In the USA 2.2 million will die and 550,000 will die in Canada

The left side of the slide features a vertical decorative element consisting of several thin, parallel lines in shades of blue and grey. To the right of these lines are several overlapping circles of varying sizes, also in shades of blue, creating a modern, abstract design.

2010

NEW ILLNESS AND INFESTATION

A tropical bug carried over from Africa in May 2010 (Arrive in California)

By December 2010 390,000 people will die USA
By plane a small animal illegally will be brought into the States. This dangerous bug will not eat away at the animal for it is unaffected. This bug will come out alive in the stool of this animal and a child in USA will come in contact with it and in 2 weeks the child will be dead. The hospital and it's doctors will take 6 weeks to find the cause in the meantime the hospital and staff and patients are all affected. In 6 weeks it escapes the confines of the hospital walls and affects many.
